Features:

- Short pattern and middle pattern (K1, K2)
- Cast steel / stainless steel body
- Double offset construction:
Rotary movement (90°) without wear or friction
- Metallic or PTFE+C sealing
- Bi-directional tightness up to differential pressure 25 bar
- Replaceable seat ring
- Firesafe acc. to ISO 10497/ BS6755
- ATEX (optional)

myValve® - Your Valve Sizing-Program.

myValve® is a powerful software tool that not only helps you size your system components; it also gives you instant access to all other data about the selected product, such as order information, spare parts drawings, operating instructions, data sheets, etc., whenever you need it.

- Contents:** **Module ARI-high performance valve ZEDOX-calculation**
- Sizing of flow quantity Kv, volume flow Q, pressure drop p, sound level; Selecting the valve size with given capacity; Selection of the actuator.
 - Calculation of torque for actuators in flow from shaft side and flow from disc side.
- Media:** **Integrated media-data bank (more than 160 media) with conditions:**
- Vapours / gases
 - Steam (saturated and superheated)
 - Liquids
- Special features:**
- Project administration of the calculation and product data incl. spare part drawings concerning to project and tag number.
 - Direct output or calculation and product data in PDF format.
 - Product data could be taken for a direct order.
 - SI- and ANSI-units with direct conversion to another data bank.
 - Settings with over pressure or absolute pressure.
 - All ARI valves are integrated in a data bank.
 - Direct access concerning to the product on data sheets, operating instructions, pressure-temperature-diagram and spare part drawings
 - Operation in company networks possible (no complex installations on individually PC's necessary).
 - Extensive catalogue extending over several product groups.
- System Requirements:** Windows operating systems, Linux, etc.
